

GLOBAL NYLONS

2016

ABOUT THE REPORT- RELEASING IN JULY 2017

Global Nylons 2016 is an unique report packed with up-to-date 'not easy to find' statistics and objective analysis of the trends and recent development in the polyester industry. It will cover the entire chain beginning from feedstock benzene to intermediates- caprolactum, and down to nylon filaments. Data will be in tabulation and graphical format on key indicators like capacity, production, import, export, and apparent consumption region-wise and country-wise from 2011 to 2016 and supply/demand forecast for 2022.
